##### Care of Horses.

It is a very good practice to clip horses, partly or in whole, at this time of the year. We believe that the European custom of clipping the legs and belly as high as the traces come, is rather better than our own usual method of either clipping all over or stopping just above the knees and hocks. Any clipping which frees the lower part of the horse's body from long hair is a decided advantage while the muddy period lasts, and this is particularly true during the raw cold spring weather and late winter.

Half clipping allows what mud adheres to the belly and legs to be easily removed, and the skin then dries rapidly. Nature is surprised by the first warm weather in the spring, the horse still has his heavy coat of winter hair, and he perspires profusely at his ordinary work. Most of the sweat soaks down on the legs and belly, keeping the whole horse wet from its vapor. If this can be overcome, the rest of the horse's body can be dried off with comparative ease. The only way to overcome it at this time of year is to clip the lower half of all of the body.

Clipping the lower part of the legs only simply aids in keeping these parts free from mud, and this sort of clipping is done more to save work than to save the horse.

There are not many who advocate or practice clipping the entire body early in the spring. This is a valuable and perfectly feasible practice where the driver knows his business and protects the horse from sudden changes and bad weather, but it is safer to follow the half clipping plan

payments are disappearing and being replaced by the walks. There are only a few business buildings remaining on Main street that have the brick walks in front.

##### Chief Blocher's Brother Dead.

He will not return until after the funeral. By the death of his brother, Chief Blocher is the only survivor of his family.

#### JEPSOM HEADS HEALTH BOARD

DEAN OF STATE MEDICAL ASSOCIATION TO GIVE DUTIES ENTIRE TIME.

CHARLESTON, July 7.—Governor Hatfield has announced the appointment of the members of the State Board of Health for terms of two and four years. The board is now composed of twelve members. The holders are Dr. W. W. Golden, of Elkins; Dr. J. E. Robins, of Charleston; Dr. H. W. Rymer, of Harrisville, and H. A. Barbee, of Point Pleasant. The new members are Dr. S. L. Jepson, of Wheeling, the dean of the medical association in West Virginia, who will succeed Barbee as secretary, and will devote his entire time to the affairs of the board; Dr. J. L. Pyle, of Hancock county; Dr. H. J. Shipper, of Berkeley county; Dr. J. A. Rasmussen, of Beckenham; Dr. W. J. Davidson, of Parkersburg; Dr. H. A. Davidson, of Parkersburg; Dr. H. A. Brandebury, of Huntington; G. D. Ling, of West Union, and Dr. George F. Daniel, of Marshes.

Much interest is being centered in the appointment of a State Fish and Game Warden, and the governor has devoted about as much time to consideration of the applications for this office as he has to those for any other job at his disposal. J. A. Viquesney, of Belington, has held the post ever since it was created, and while he is making no particular fight for reappointment, he has the kind of friends who don't rest in their endeavor to

(Continued from Page One.)

Sheriff Kling, of Cumberland, who had arrested him at the mining town of Lonaconing, Md. The following day, June 14, he was held in bail, bonds of \$500, to await the action of the October term of court and Justice of Peace Kling.

The bond was furnished by William Kinson, of Tilgheney county.

The case appeared on the October court calendar as No. 83, criminal appeals, and was continued. State's Attorney David Sloan, now deceased, told the court that the warrant was missing.

At the succeeding January term of court, the case, No. 9, criminal appeals, was again continued, the records not revealing the outcome of the case.

When the matter was brought before the supreme court it was dismissed.

As far as can be learned by diligent search of the court records, files of newspapers of the day and interviews with the former sheriff, Wilson did not appear within the county at any term of court at which the case was docketed.

#### GAS COMPANIES WANT HIGHER RATE.

CHARLESTON, W. Va., July 7.—Seven gas companies operating in the northern panhandle have filed new schedules or rates with the public service commission which they desire to put into effect. While the schedules are in the nature of a revision of rates, there is said to be somewhat of

a general increase over the rates now in effect.

The new schedules vary according to the location of the places served, depending upon the distance from the supply.

The public service commission has given thirty days in which objections can be filed to the new rates.

#### HELPLESS AS BABY

Down in Mind Unable to Work, and What Helped Her.

Summit Point, W. Va.—Mrs. Anna Belle Emey, of this place, says: "I suffered for 15 years with an awful pain in my right side, caused from womanly trouble, and doctored lots for it, but without success. I suffered so very much, that I became down in mind, and as helpless as a baby. I was in the worst kind of shape. Was unable to do any work."

I began taking Cardui, the woman's tonic, and got relief from the very first dose. By the time I had taken 12 bottles, my health was completely restored. I am now 48 years years old, but feel as good as I did when only 16.

Cardui certainly saved me from losing my mind, and I feel it my duty to speak in its favor. I wish I had some power over poor, suffering women, and could make them know the good it would do them."

If you suffer from any of the ailments peculiar to women, it will certainly be worth your while to give Cardui a trial. It has been helping weak women for more than 50 years, and will help you, too.

Try Cardui. Your druggist sells it. Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions on your case and 64 page book, "Home Treatment for Women," in plain wrapper. N.C. 121
